AMENDMENTS to the CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application. An identifier indicating the status of each claim is provided.

B/ 17.(currently amended) A method for transmitting an e-mail message comprising the steps of:

receiving the e-mail message at an intermediate address, the e-mail message including non-preferred e-mail address data, the e-mail message having been previously transmitted to an invalid e-mail address and transmitted back to a sender e-mail address;

parsing the non-preferred e-mail address data from the e-mail message at the intermediate address and determining if there is preferred e-mail address data associated with the non-preferred e-mail address data; and

storing, at a location associated with the intermediate address, the non-preferred e-mail address data when it is determined that there is no preferred e-mail address data associated with the non-preferred e-mail address data.

18. (original) The method as recited in Claim 17, further comprising the step of:

transmitting the e-mail message to the preferred e-mail address when preferred e-mail address data is associated with the non-preferred e-mail address data.

19. (original) The method as recited in Claim 18, further comprising the step of sending a return e-mail message to a sender address from the intermediate address indicating that the e-mail message has been sent to the preferred e-mail address.

Appl. No. 09/629,904
Amdt. Dated Dec. 9, 2003
Reply to Office Action of Sept. 10, 2003

20. (original) The method as recited in Claim 17, further comprising the step of sending a return e-mail message to a sender address from the intermediate address indicating that the e-mail message was not forwarded to the preferred e-mail address.

21. (original) The method as recited in Claim 20, further comprising indicating to the sender that the intermediate address will withdraw the e-mail message upon receiving a request from the sender address.

22.(original) The method as recited in Claim 17, further comprising the step of transmitting an e-mail message to the preferred e-mail address indicating that a user at a sender e-mail address is attempting to transmit an e-mail message to the non-preferred e-mail address.

23.(original) The method as recited in Claim 17, wherein the storing step further comprising the step of:

storing the non-preferred e-mail address data until a recipient registers the preferred e-mail address data.

24.(currently amended) A method for transmitting an e-mail message that has been sent from a sender address to a previously-known recipient e-mail address and rejected at the previously-known recipient e-mail address and transmitted back to the sender address, the method comprising the steps of:

receiving the rejected e-mail message at an intermediate address;

determining a preferred recipient e-mail address from the rejected e-mail message; and

storing, at a location associated with the intermediate address, the previously-known recipient e-mail address when it is determined that there is no preferred recipient e-mail address associated with the previously-known recipient

e-mail address.

25. (original) The method as recited in Claim 24, further comprising the step of:

transmitting the e-mail message to the preferred recipient e-mail address when a preferred recipient e-mail address is associated with the previously-known recipient e-mail address.

26. (original) The method as recited in Claim 24, further comprising the step of sending a return e-mail message to a sender address from the intermediate address indicating that the e-mail message has been sent to the preferred recipient e-mail address.

27. (original) The method as recited in Claim 24, further comprising the step of sending a return e-mail message to a sender address from the intermediate address indicating that the e-mail message was not forwarded to the preferred recipient e-mail address.

28.(original) The method as recited in Claim 27, further comprising indicating to the sender that the intermediate address will withdraw the e-mail message upon receiving a request from the sender address.

29.(original) The method as claimed in Claim 24 further comprising the step of transmitting an e-mail message to the preferred recipient e-mail address indicating that a user at a sender e-mail address is attempting to transmit an e-mail message to the previously-known recipient e-mail address.

30.(original) The method as recited in Claim 24, wherein the storing step further comprising the step of:

Appl. No. 09/629,904
Amdt. Dated Dec. 9, 2003
Reply to Office Action of Sept. 10, 2003

storing the non-preferred e-mail address data until a recipient registers the preferred e-mail address data.

B1 31.(currently amended) A method for transmitting an e-mail message that was sent from a sender address to a previously-known recipient e-mail address that is associated with a first service provider, and rejected at the previously-known recipient e-mail address and transmitted back to the sender address, the method comprising the steps of:

receiving the rejected e-mail message at a second address;
determining whether there is a preferred recipient e-mail address, that is associated with a second service provider, from the rejected e-mail message; and
storing, at a location associated with the intermediate address, the previously-known recipient e-mail address when it is determined that there is no preferred recipient e-mail address associated with the previously-known e-mail address.

32.(currently amended) A method for transmitting an e-mail message that has been sent from a sender address to a second address, rejected at the second address and transmitted back to the sender address, the e-mail message including a non-preferred e-mail address associated with a first service provider, the method comprising the steps of:

receiving the e-mail message at an intermediate address~~the second address~~;
parsing the e-mail message to obtain the non-preferred e-mail address from the e-mail message;
determining whether there is a preferred e-mail address, that is associated with a second service provider, from the non-preferred e-mail address; and
storing, at a location associated with the intermediate address, the non-preferred recipient e-mail address when it is determined that there is no preferred

recipient e-mail address associated with the non-preferred e-mail address.

✓ 33. (canceled)

B1
34. (currently amended) A method for transmitting an e-mail message comprising the steps of:

 sending a first e-mail message from a sender address to a non-preferred recipient e-mail address; and

 receiving, at the sender address, a second e-mail message from a second address, which is independent from the non-preferred e-mail address, indicating that the non-preferred recipient e-mail address is not preferred and that there is not a preferred recipient e-mail address associated with the non-preferred e-mail address.
